

# The Original **THEBAN WORKBOOK**

If you purchase this workbook without a cover, you should be aware that this book may have been stolen property, and reported as “unsold and destroyed” to the publisher. In such case neither the author nor the publisher has received any payment for this “stripped book.” Many long hard hours have been applied to this workbook by the author to help you learn the Theban Script. If you do receive this book and believe that it is stolen workmanship, please report it to us. We want to make sure the community is getting the correct information and not a cloned and possibly incorrect version of this book.

## Author's Note

I myself wanted to learn the writings of this mystical and magickal THEBAN SCRIPT (pronounced thē-bann). Finding the teaching materials to learn was close to impossible. My goal was to read and write Theban fluently but no one had any tutorials available to help people like myself to learn to read and write the Theban alphabet. There were references from books with different variations of the magickal alphabet to choose from, but they were limited on how to learn the script. If you may now know, there are several variations of the Theban alphabet. You now have the option to pick what is closest to your hearts in the way of writing any flavor of Theban.

By no means is this workbook a replacement to the Theban Alphabet that you have learned and used over the years. I have put together the information I have learned and wish to share with you. The type of Theban you will be learning is the modernized version that will work with common day letters like 'J', 'U' and 'W' which are not available in some Theban scripts. This workbook was created to help anyone who would like to learn to read and write theban, no matter which variation they know, or choose from. Your magickal script that has been passed down from generation to generation will not be replaced with what you see in this workbook. You can completely ignore the characters used here, but you can still utilize some of the tools available to help pass your ancient writings onto your children. This workbook is special in a way that it can be used by all no matter what flavor of Theban you wish to learn.

To teach myself, I used the same format used in this book. Once I learned the THEBAN ALPHABET, I created several booklets like this one and passed them amongst strangers and friends to see what kind of feedback I would get. They found the workbook easy to use, very well organized, and amazed at how they can read and write Theban in a short period of time. "I wish something like this was available years ago" was the general consensus among the group. With such a positive response, I wanted to share it with all of you, hoping you'll find the same joy and experience as we did in having the ability to read and write Theban.

I hope you enjoy this workbook. A lot of hard work has gone into it. Peace to all!

- Gealhain Samlach

## How to Use This Book

Start at the beginning of the workbook and learn at your own pace. With 27 characters to learn, you could set a goal to learn them all in 27 days or less – one character a day. You will learn the vowels first, then the rest of the letters. Learning the vowels first will give you a chance to form words while you're learning.

**Navigational Strip:** This is located at the top-center of the page of each new character you are about to learn. It will tell you what you are currently working on (the letter is underlined) and what you just learned (these letters are shown in Theban). The example below tells us that you are learning the letter 'O' and also shows the characters you have learned (A, E, and I).

𐌆 B C D 𐌇 F G H 𐌈 J K L M N O P Q R S T U V W X Y Z.

**Given Letter:** This box is located on the left-hand side of the page and indicates which letter you are about to learn. The roman letter is shown below and just above it will be the Theban letter you will be learning.

**How to Write the Character:** Each new section will have an area to teach you how to write the Theban character.

**Traditional Corner:** The traditional corner is used to replace our Theban characters with your own if you don't want to use the ones presented in this workbook. Use this space to substitute with your own traditional characters and then use the rest of the workbook to help you learn to write the entire alphabet.

**Theban Trace™:** The row of boxes below will contain the Theban letter. Use your pen or pencil and trace each one to get the feel of how the character is written. Use the ‘How to write the character’ as your reference.

**Theban Search:** These are practice areas to help learn the letters you have just worked on. These Theban word search puzzles will really help your retention in learning these characters.

## Character Retention

Flashcards are downloadable from our website to help with your studying of the Theban Script. Pick out the characters you have learned, and before you go to bed, go through them over and over again to help with the memorization process. When you have a little free time and you are away from this workbook, write out the characters you just learned, try forming some words, and sentences. Doing this daily will also help you remember the characters. As you go through this workbook, you will also notice that some of the roman characters are changed to reflect the Theban characters you have learned. When you have finished this workbook you should be able to read the entire page.

*NOTE:* The secret to learning the THEBAN SCRIPT - you must practice it daily until you can get a real good grasp of it.

### SAMPLES

At the end of this workbook you will be given several samples from our book "**Theban Puzzle Workbook – Volume 1**", a continuation of learning Theban from this workbook. Once you have mastered the alphabet in this workbook, don't stop there, keep going!! You are opening a new door for yourself into the mystic world of THEBAN and we don't want you to lose it, but retain it.

### BOOKS

You will have the chance to test your THEBAN skills in additional Theban Today workbooks, which are based on the characters used in this workbook, to help you retain what you've just learned. We just can't leave you hanging after completing this book. Visit **www.ThebanToday.com** for more information.
